

Alfa Laval in the power plant

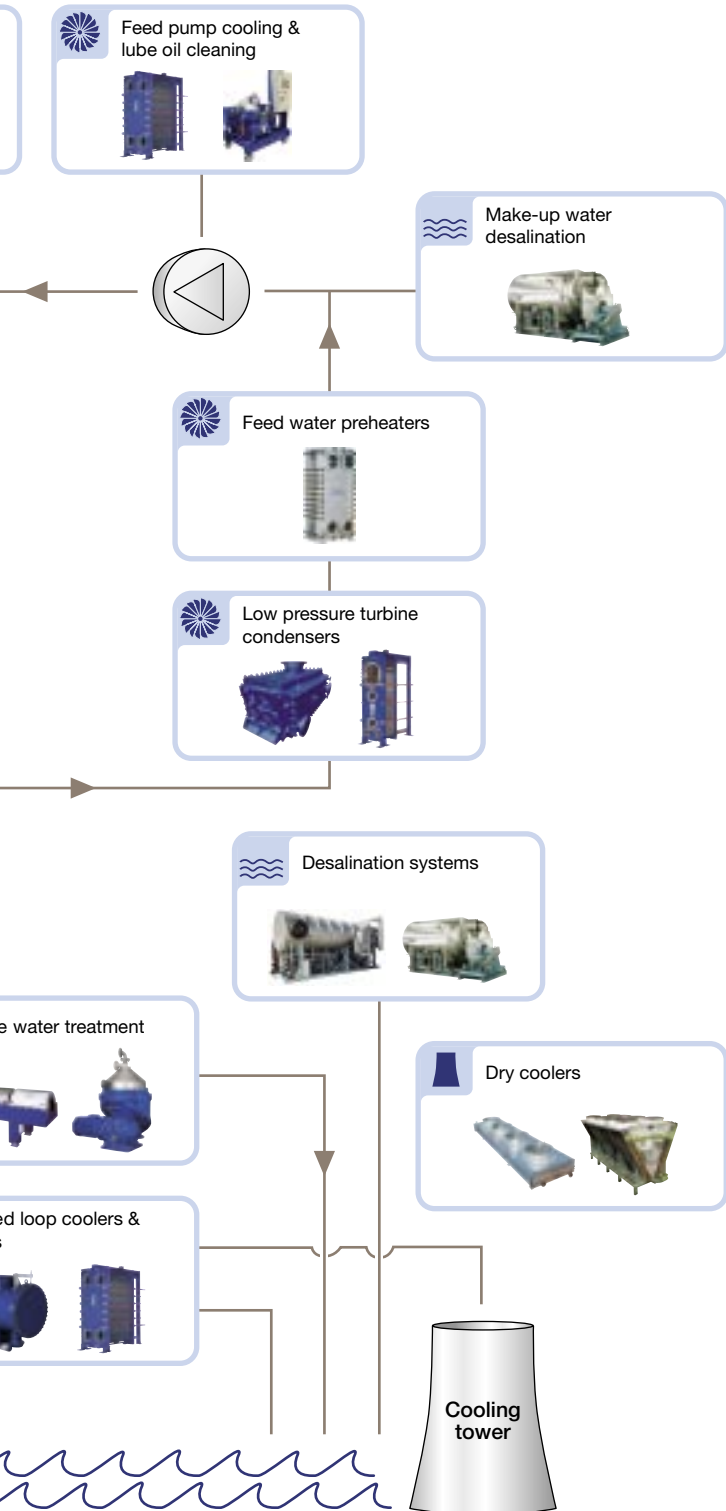

How our systems fit into the picture

Whatever the energy source, we im

Improve the results

Turbine systems

Condensers & district heaters
Low pressure turbine condensers
Feed water preheaters
Feed pump cooling & lube oil cleaning
Turbine lube oil cooling & cleaning
Generator cooling

Fuel systems

Gas performance heaters
Fuel oil treatment

Reactor auxiliary systems

Spent fuel pond cooling
Residual & emergency cooling

Waste treatment systems

Waste water treatment
Flue gas desulphurisation gypsum dewatering

Plant auxiliary systems

Closed loop coolers & filters
Insulating oil cooling & cleaning
Ash water coolers & filters
Dry coolers

Desalination systems

Multi-effect distillation
Vacuum vapour compression

Diesel engine systems

Jacket water cooling
Lube oil cooling & cleaning

Alfa Laval in brief

Alfa Laval is a leading global provider of specialized products and engineered solutions.

Our equipment, systems and services are dedicated to helping customers optimize the performance of their processes. Time and time again.

We help our customers to heat, cool, separate and transport products such as oil, water, chemicals, beverages, foodstuffs, starch and pharmaceuticals.

Our worldwide organization works closely with customers in almost 100 countries to help them stay ahead.

How to contact Alfa Laval

Up-to-date contact details for all countries are available on our website at www.alfalaval.com/power
